SAUMIL SHAH

SKILLS

Frontend - HTML, CSS, Bootstrap, Tailwind, JavaScript, TypeScript, Angular, React

Backend - Python, Django

Database - My SQL, PostgreSQL

Tools - Git, Jira, Figma, Postman

EXPERIENCE

Capgemini - Software Engineer (Dec 2021 - Present)

Meduglobal (Full Stack Developer)

- Contributed to the development of Meduglobal, an online platform aiding student in their higher education journey.
- Collaborated with a team to create comprehensive information on colleges, courses, and admission processes.
- Worked on Django views, models, and templates to ensure seamless functionality and user experience.
- Utilized Bootstrap for styling, enhancing the portal's visual appeal and usability.
- Played a key role in building a user-friendly search engine, interactive tools, and a vast database of educational institutions to simplify the college search process.
- Utilized HTML, CSS, Bootstrap, Django, and PostgreSQL to build a user-friendly and functional website tailored to the client's need.

Millennial Garage Internal Department Website (Full Stack Developer)

- Collaborated with a team to develop an internal website for the Millennial Garage department at Capgemini.
- Designed and implemented features to facilitate the onboarding and training process for new joiners, known as freshers.
- Developed a platform for freshers to access training materials, participate in use cases and projects, and attend daily dose sessions.
- Created a page for project enrollment where freshers could select projects based on their technology stack and mentors could register to mentor these projects.
- Utilized HTML, CSS, Bootstrap, Django, and PostgreSQL to build a user-friendly and functional website tailored to the department's needs.

890 By Capgemini (Frontend Developer)

- Developed dynamic UI components for a data analytics web application using Angular, HTML, and SCSS.
- Responsibilities included UI development, bug fixing, and collaboration with QA and backend teams to ensure smooth functionality.
- Implemented multilingual features to enhance the application's accessibility and usability across different language preferences.

EDUCATION

Gujarat Technological University, Ahmedabad - B.E. In Computer Engineering (2017 - 2021)

PROJECTS

Any Post - (Python, Django, SQL, HTML, CSS, JavaScript, Tailwind CSS, Responsive Design)

https://github.com/saumil8200/AnyPost

- Developed a Reddit-like web app with user authentication, CRUD operations, and comment threading.
- Integrated password reset and welcome email functionality.
- Designed user account pages for account management.
- Utilized SQL and Django's built-in features for data management.
- Also created API's using django-rest-framework.

AWARDS

RISING STAR (DEC 2022) - Received Rising Star Award For Dec 2022 Month In Insights & Data Department of Capgemini.
